International meet on nanotechnology

Staff Reporter

The international conference on "Frontiers in nanoscience and technology" organised by the Department of Physics at Cochin University of Science and Technology will be held from August 14 to 17.

The event, which will be held at the IMA House in Kaloor, is the third in the series of conferences on the topic.

M.R. Anantharaman, Head of the Department of Physics, said here on Thursday that eminent scientists from across the world would attend the programme. Pulickel M. Ajayan of Rice University, U.S., will inaugurate the conference and deliver the keynote address on 'Engineering and the nanoscale: 1D, 2D and 3D architectures'. S. Anantha Narayanan, Director of Naval Physical and Oceanographic Laboratory, Kochi, will be the chief guest. Other experts participating in the conference include G. Srinivasan, Oakland University, U.S.; A. Ajayaghosh, NIIST, Thiruvananthapuram; Raju Ramanujan, NTU, Singapore; and Manfred Albrecht, TU Chemnitz, Germany.
